

MEET THE STAFF: Chris Pochowski, Social Services

I joined the staff of Mile Bluff Medical Center in February of 2001 as an assistant medical librarian in the medical library, and in October of 2006 I transferred over to the Social Services Department. Prior to working at Mile Bluff, I worked at Walker Stainless in New Lisbon for 18 years as an executive administrative assistant.

My primary duties in Social Services include care plan scheduling for residents at Fair View and Crest View nursing homes, support staff for our department, and I am the Philips Lifeline Coordinator. I also assist with department projects, presentations, support groups, and in-services. These responsibilities give me the opportunity to work with a variety of individuals and the public, which is one of the highlights of my job.

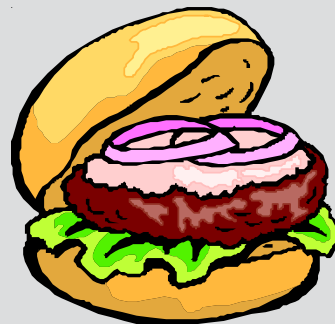

My community activities include being a Sunday school teacher, Girl Scout activities, former board member of the Advanced Leadership Program of Juneau County, I served two terms as the Thrivent Financial Board Juneau County Chapter Secretary, and website developer.

I grew up in Caledonia, Wisconsin and spent my summer vacation time traveling the states and Canada with my parents and brother. My husband Ron and I have been together since 1977, and our daughter, Ashley, is 11 years old. My interests include playing sports, biking, riding my motorcycle, classic cars, watching movies, attending musical plays and creating landscape and wildlife paintings for my website.
