

DRIVE-UP LAB DRAWS NOW AVAILABLE!

8 am - noon | Monday - Friday

Mile Bluff Medical Center, Mauston

About drive-up lab draws

- This lab service is available for blood draws only.
- You must be free of COVID-19 symptoms to use this service.
- Appointments are required, call 608-847-1067.
Please call at least a day in advance to allow for pre-registration at the time of scheduling.
- You need to have a driver bring you to your appointment.
The blood draw must take place out of the passenger side to keep the lab staff out of the way of other traffic in the area.
- It is preferred to draw blood from your right arm/hand.
- Your clothing must allow the staff to easily access the veins in your hand and arm.
- You will be asked to provide the make, model, color and license plate number (if possible) for the vehicle you'll arrive in.

When you get to 1050 Division Street in Mauston

- Please arrive about five minutes before your appointment time.
- Turn into the main medical center driveway, Entrance B.
- Once you're in the parking lot, turn right and follow the red arrows to the drive-up lab draw under the canopy at the medical center's main entrance.
- Pull into the drive-up lab draw lane, and call 608-847-1263 to inform the staff that you've arrived. Someone will be up from the lab to assist you within five minutes.
If a staff member is already present helping another patient, you do not have to call. Just wait in line to be directed by the staff.
- You'll be asked to spell your name and confirm your birthdate.
- Your blood will be drawn, and you'll be done.

OTHER LAB SERVICES OFFERED

Lab services are still available in our facilities for blood draws and other testing. Please note that if you use any of our lab services, you must be free of COVID-19 symptoms. If you do have symptoms, call your primary care provider for information on what to do. Symptoms can include: fever, dry cough, shortness of breath, ear pain, sore throat, diarrhea, etc.
