

Together We Can

build immunity in our community

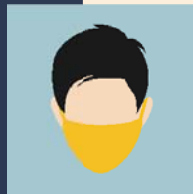

It requires teamwork to develop a strong defense against COVID-19. Joining forces gives us the best chance at defeating the virus.

To take down an enemy, it's important to use every weapon available.

When it comes to fighting COVID-19, handwashing, social distancing and wearing masks are effective tools.

Adding a vaccine to the battle provides one more shield of protection for our families, schools, businesses and workplaces.

When the COVID-19 vaccine is recommended for you, choose vaccination. Together we can build immunity in our community!

#TOGETHERWECAN

Together We Can is supported by local residents, business and organizations.

Visit www.milebluff.com/TogetherWeCan to learn more about the initiative.
